Introduction to Beijing University of Chemical Technology

Founded in 1958, Beijing University of Chemical Technology (BUCT) is a national key university affiliated with the Ministry of Education of the People's Republic of China. A member university of China's "211 Project", "985 Project Innovation Platforms" and "Double First-Class University Project". BUCT shoulders the mission of innovative talent training, scientific research, and high-tech development.

Over the past 68 years, through continuous efforts, BUCT has grown into a comprehensive multidisciplinary university rooted in science and engineering and enriched by distinctive disciplines such as business, economics, law, literature, philosophy, education, and medical science. It offers a complete talent development pathway from undergraduate to doctoral levels. In the Essential Science Indicators (ESI) rankings, chemistry, material science and engineering are among the top 1‰ in the world, computer science, environment/ecology, biology/biochemistry, geoscience, agricultural science, physics, Pharmacology & Toxicology, top 1%. The scientific research of BUCT has been in robust development in recent years. Its science and technology funds continue to hit record highs.

With 18 colleges and schools, BUCT is the home university of 16,000 full-time undergraduate students, 10400 full-time postgraduate students (including 2,000 PhD students), 2,700 students of continuing education, and around 400 international students. It hosts more than 2,700 faculty members and staff including 8 academicians from the Chinese Academy of Science and the Chinese Academy of Engineering and 5 international academicians.

With a global vision, BUCT has successively established partnerships with over 170 institutions all over the world. It offers a wide range of education programs to international students including bachelor's, master's and doctoral programs in Chinese and English, Chinese language and culture programs, and summer science camps. It runs around 90 study abroad programs, including exchange programs, joint degree programs, overseas training programs and summer/winter camps. BUCT constantly supports international research collaborations, which have generated abundant high-level research publications in top academic journals. It also hosts a wide range of international conferences and competitions.

The 21st century presents both unprecedented opportunities and profound challenges. Upholding its motto — "to be ambitious, virtuous, profoundly learned, and to serve people" — BUCT is committed to becoming a world-class university distinguished by its unique character and global influence.
